Arlington Public Schools recognizes that purchasing school supplies has been an increasing demand for our families and a financial hardship for some. Because we ask for community support for our schools through levies and other fundraising activities, the schools will now provide school supplies (including supplies to complete class projects at home).

**Elementary**

- Classroom supplies are provided, including any materials needed to complete class assigned projects at home. While students/families may choose to use additional items from home for class projects, a student can earn the highest possible grade with materials supplied by school.
- Backpacks are recommended and families will provide a backpack for their student.

**Middle and High School Students**

- Students are responsible for binders, dividers, and pencils.
- Other classroom supplies are provided, including materials needed to complete assigned projects at home. While students/families may choose to use additional items from home for class projects, a student can earn the highest possible grade with materials supplied by school.
- Students are responsible for a P.E. uniform (athletic shorts and a plain tee shirt).
- Backpacks are optional, but are not required.

Families who wish to make a monetary or item donation may donate to their school’s office.
