Arlington Public Schools seeks feedback from staff, students, families and community members

ARLINGTON- Arlington Public Schools seeks feedback via a survey from staff, students, families and community members about the district and its schools. Results from the 2022 Family and Community Survey will be used in developing District and School Improvement Plans and to help schools and the district improve communications with families and community members.

“In addition to our annual survey questions, we’re also asking questions about educational equity in order to identify and remove barriers and increase access to learning,” said Dr. Chrys Sweeting, Superintendent. “Answers from these questions will help us design and implement better ways to support each and every student.”

The family and community survey is available on the front of the district website at asd.wednet.edu and linked below:

The survey will only take a few minutes to complete. Families with more than one child in the district should complete a survey for each child. The survey will be available through June 10.
