

# Worries

**Student safety will decrease in staff**

**Not enough teachers/para teachers**

**Worried about the missing 77 kindergartners' well being**

**Reduction in student learning**

**Safety**

**Safety**

**Quality of education**

**Compromising student learning**

**That the minimum impact on students is not met**

**As a student for the cuts it might be hard for students to find the classes**

**Worried we will lose safety and security staff**

# Hopes/Ideas

**Grants for transitional kindergarten**

**Greater community involvement**

**Priority RIFS to NON-Teaching certificated over certificated teaching**

**My hopes/ideas is that students learn, and I think we should be able not to change the schedule as much as possible**

**Transferring some maintenance projects/salaries to Capital**

**Decrease school spending without cutting programs**

**Directors/Supervisory roles managing optimal number of employees (10-12)**

**Transitioning to paperless processes**

**Better quality education/experience without cutting cost**

**Multiple kindergarten open houses for registration**

# Values/Priorities

Value the continued increase of technology in the classroom

Keep infusing best practices for mental health

Counselors are critical

Programs for Hi-Cap students

Student safety and security

Counselors are critical

SRO comes and interacts with us at lunch. Perfect world = 2 SRO's

Special education

Student discipline - fosters a better learning environment for all

Students learn differently - not one way to learn. Grades don't capture ability

Safe environment

Optimal environment for student learning - facilities, grounds, custodial

STUDENTS

Education, safety, security of students

My values and priorities are that students can learn and grow, and I think we should do anything to educate.
