

POST MIDDLE SCHOOL

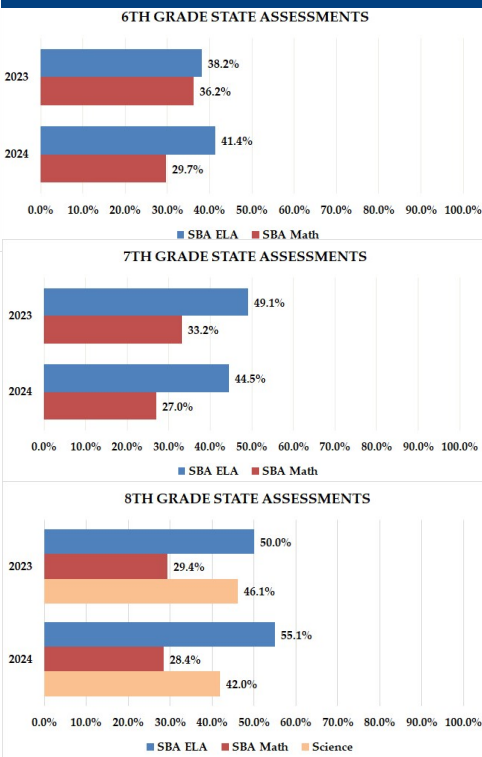

Our School's Mission

Utilizing research-based practices, we will collaboratively increase student achievement while engaging all students as independent learners in an academically, socially and emotionally supportive environment.

Washington State Report Card

The Washington State Report Card shows school data at the state, school district and school building level. The report card includes information like assessment results, teacher qualifications and other information. View the report card at: <https://reportcard.ospi.k12.wa.us/>. You can also visit your child's school if you don't have access to a computer.

Leslie Olson, Principal

White 72.4%

Facility Use

Post Middle School's original three buildings were constructed in 1981. The main building houses the administrative offices, classrooms, library, multipurpose room, stage and kitchen. The gymnasium contains a main gym, auxiliary gym, locker and shower facilities and storage. The shop building consists of a shop, two classrooms, office space and storage. The main playfield is west of the gym with an all-weather track. There is also a small grass playfield on the property. In 1993, a seven-classroom addition that included a technology lab was constructed at the southeast corner of the campus. Currently, we use an additional four portables. You are invited to become an active part of our school.

School Improvement Plan

Post has continued expanding our collaboration, learning, and strategies to support inclusive practices to meet each students' needs. The staff is engaging as content and grade level teams to collaborate in removing barriers and planning as they implement UDL strategies and cross curricular connections. Professional learning communities continue to meet weekly to support collaborative planning and assessment of grade level standards. Post has continued implementation of a WIN ("What I Need") advisory period 4 days a week. This is where students can get academic intervention, organizational support, or extension in areas as well as their weekly Character Strong Lesson. Post also continues our WEB program to support 6th grade transition to middle school and to build leadership skills among our 7th and 8th graders. The WEB program goes alongside the Character Strong curriculum that includes weekly social emotional learning lessons. Behavior intervention and social emotional learning continues to be a priority again based on student needs in order for students to access academic content and academic intervention. In addition we have also revamped student recognition and awards with building wide Caught You Daring tickets, Student of the Month recognition, and additional student recognitions throughout the year. Post continues to deploy resources and strategies to support all of the needs presented through team meetings, collaboration with families, professional learning in behavioral supports, student support advocate connections, and school counselor support.
